

SOUTH STAFFORDSHIRE COUNCIL

05 DEC 2021

RECEIVED

17/11/22

Dear Sir or Madam,

I have previously contacted you by letter to share my apprehension with regard to the proposed development near to Essington village and Linthouse Lane Wednesfield.

As a resident of Wednesfield in the area being considered, I feel I must reiterate my concerns, especially as I have lately experienced some excessively crowded roads both on Linthouse Lane and also on Essington Rd.

The number of homes being considered with their inevitable number of extra vehicles, conjures up the image of an area constantly grid locked, resulting in even more air pollution. That will add to the problem of us losing both our green belt and farmland which are commonly referred to as our 'lungs'.

This particular problem could be helped if the Country Park I have heard mentioned, could be on the Wednesfield side of the former mineral railway. Unlike South Staffs we are part of a large conurbation

and our green areas are fairly few and far between.

I understand your problems and the need for developments, but I beg that you consider our concerns sympathetically as well as you would consider your own.

Thank you for the opportunity to again voice my concerns.

Yours faithfully
Jean Aston
