

3984**Object****Document Element:** Objectives, 6.25**Respondent:** Mrs Jill Colley**Date received:** 16/11/2022 via Web**Summary:**

Linhouse lane is already a very busy road and as it is on the main access route to New Cross hospital a lot of ambulances go along the lane by adding yet more traffic will hinder their progress. Linthouse lane is already like a race track with many speeding drivers. It is also difficult to get out of our drives at the best of times. The Junction at Kitchen Lane is a bad junction to get out of and a lot of near and not so near misses happen on a regular basis

Change suggested by respondent:

The plan will create an absolute nightmare in this already over crowded area with access to Dr's and schools already under pressure, not to mention the impact on the local wildlife.
