Hello.

I would just like to send an email on concern regarding the new plans to build in the Pattingham hall end/dodds field.

My reasonings my concern are mostly flooding to my house. I currently live in [REDACTED] and this is something we are all very concerned already about. The field which the houses are meant to be built is adjacent to my back garden which already floods with only small amounts of rain.

Also flooding to near by houses is a huge concern as this actually happened when the houses on Dodds field where originally built.

Please could I be kept informed of any progress or updates in the plans as this will impact me personally.

Many thanks
Victoria Davey
