Sirs,

I have received notification of Regulation 19 Publication Plan.

Having read through this, I am writing to object to the development in Spatial Housing Strategy 2018 - 2039 Northern edge of the Black Country at Land north of Linthouse Lane (Essington Ward) on the grounds of Nation Food Security whereby the repurposing of Agricultural Land for Housing development is inappropriate in times of potential food shortages, especially highlighted since the Ukraine conflict and it's effects on the supply of food globally.

In addition, there is not the infrastructure in place to support such a development. Essington has already been subject to many developments without the necessary evolution of infrastructure to support this and this proposal would put unnecessary strain on the surrounding area.

Finally, the reduction of Green Belt is unacceptable as it would be adverse to the National aim of a reduction to the effects of climate change.

I trust these points will be forwarded accordingly to the appropriate officers and councillors.

Yours Faithfully,

--
