Dear Sir/Madam

Objection to the proposed development on site 576

I won't waste both yours and my time going through the reasons why this development should not go ahead as I'm sure the local councillors and their families who own/owned the land around Hyde Lane have given up so much of their spare time to ensure that a fair and balanced decision is/was made without any conflict of interest or personal gain.

I was however very disappointed (regarding this local current plan review process in 2022) to miss the opportunity extended to local residents previously to place green or red round stickers on a map of Kinver as to where we thought the developments should or shouldn't take place. I felt this was a really productive and scientific process going back 4 or 5 years ago when deciding that the then Councillor Hadlington's land was a prime location. I hope that the family of the deceased Councillor Edwards feel that they will be afforded the same impartiality regarding the proposed development on site 576.

I always like to take the positives from situations and, whilst it was somewhat wounding to be called a 'NIMBY' (not in my BACK yard) when Councillor Hadlington's land was approved for development, I can now look forward to being called a more flattering 'NIMFY' - the joys of being the filling in a councillor owned land sandwich!

Regards

Mr A Smith
