Document Element: Policy SA1 – Strategic development location: Land East of Bilbrook

Respondent: Mrs N Turner

Date received: 20/12/2022 via Web

Summary:

I disagree with the huge number of houses planned for a small area. Main objection is lane green road is not suitable for access to other roads. Already lots of traffic, both ends of the roads are difficult junctions, parked cars down the length of the road often mean driving on opposite side of the road while not being able to see oncoming traffic. I drive down this road almost everyday during school run, the additional traffic created from proposed plan would be unsafe and cause major traffic issues.

Change suggested by respondent:

Less houses (or at least for houses to be spread out more evenly around the area) No cut through onto Lane green road from Barnhurst road.

Legally compliant: No

Sound: No

Comply with duty: No

Appear exam: Written Representation
