Dear South Staffordshire Council,
regarding the Sth. Staff. Local Plan
Review Regulation 19 Publication Plan
Consultation, thank you for inviting
me to comment again.

My opinion is that Townsend Field by
Wombourne High Street should not be
built on. The field is very beautiful,
and is crucial to the benefit of the
mental health of its neighbours. It
makes us feel that we have access
to the countryside which is good for
our health and a pleasure to look at,
as we walk along the side of it.

Whenever you build remember that
each dwelling needs one or two
lawns to produce oxygen, and the

amenity of a patio at the rear of each dwelling could be of benefit as well. A tree in the front lawn will give new residents a start in developing (in a green sense) their front garden, and the trees will help to stabilize the soil and to transpire any heavy rain.

Thank you for your attention,

yours Sincerely

from

Miss Theresa Vaccaro B.Sc.
