

4014

Object

Document Element: 2. South Staffordshire: Setting the scene, 2.3

Respondent: Mr Michael Westhead MBE

Date received: 02/12/2022 via Web

Summary:

The I54 has done nothing for local people apart from increase traffic, local trains are still operating one an hour when they turn up the local roads are straining from the amount of traffic and personally I don't know anyone local who works in the i54

Change suggested by respondent:

Bilbrook and Codsall are rural areas and are beautiful we bought our home here to escape city's. We don't have the infrastructure to facilitate any more homes, we should be developing what we have and look at revamping old disused buildings one of which is opposite the scout hut and could be a new park / play area
