Please note: In your representation you should provide succinctly all the evidence and supporting information necessary to support your representation and your suggested modification(s). You should not assume that you will have a further opportunity to make submissions.

After this stage, further submissions may only be made if invited by the Inspector, based on the matters and issues he or she identifies for examination.

7. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?

Please note that while this will provide an initial indication of your wish to participate in hearing session(s), you may be asked at a later point to confirm your request to participate.

8. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary:

TO BE UP TO DATE WITH WHAT IS HAPPING

SOUTH STAFFORDSHIRE COUNCIL - LOCAL PLAN 2023-2041

Part B 5 Representation continuation sheet 1 of 2

Duty to Cooperate

This piece of land and the field it forms part of (Policy Map 036C) has been subject to speculative development by a major builder for several years and whilst many objections by local residents have been made, no account of these has been taken into consideration when drawing up the Plan. They have been ignored in favour of the developer. Cooperation has been one sided only. I therefore feel that the duty to cooperate has not been complied with.

Legally Compliant

There are several statements in the Plan which go against the justification for the development, but which the SSC seem to have ignored. Therefore, I find the planned development for this area is not legally compliant with their own policies. This is explained in detail in the next section Soundness.

Soundness

I believe the proposed development of the land at Policy Map 036C, Weeping Cross, (being Open Countryside) is unsound for the following reasons and therefore also not Legally Compliant. Section 5 of the Plan paragraph 5.7 Open Countryside, this refers to what it will need to be consistent with for development to be acceptable. Under Policy DS3, 036C does not fall into these development proposals and is therefore not supported under this part of the Policy. It goes on to state that such Development on Open Countryside will be considered on a case-by-case basis, and will only be permitted where they are not located on best and most versatile agricultural land. The land proposed for development at 036C comes under 'best and most versatile agricultural land'. Therefore, under the Policy DS3 – Open Countryside, the land at 036C for development is in direct contradiction with permitted development under Policy DS3 and is therefore not legally compliant with its own Policy. Thus, the proposal cannot be considered Sound.

Paragraph 5.28 – Southern Edge of Stafford (A34 Corridor) states why this particular piece of land should not be developed. It gives good and supportable reasons for this decision. It then refers to a small section of Non-Green Belt Housing Land for development. What it fails to mention is that this proposed development land is 036C on the Plan is part of the same field mentioned above and is equally 'best and most versatile agricultural land'. It's the same field. Again, the basis for building on this is Unsound for the same reasons given for the larger field of which it forms part. It does not pass the test of Soundness. The Plan is not Positively Prepared with regard to this and only considers the speculative developer's approach and not local opinion. The development of this land is not justified or effective because it is well away, and isolated, from any of the District's other communities. The development is best and most versatile agricultural land which is not consistent with its own Policy DS3.

Part B 6 Representation continuation sheet 2 of 2

Modification to the Plan

The land at Weeping Cross 036C on the Plan constitutes only 1.6% of housing delivery. Such a small percentage could be apportioned to the larger and more needy communities such as Tier 1 villages like Penkridge, Codsall and Bilbrook without adding any extreme or significant difference to their development and would be placed nearer to where work and transport is available.
