Support

Document Element: Policy DS3 – Open Countryside

Respondent: Mrs Kathryn Hughes

Date received: 31/05/2024 via Web

Summary:

I support this plan to protect green belt. It is important to protect the countryside and also to support development proposals which promote farming diversity and encourage recreation and enjoyment of the countryside.

With respect to solar farms, each application should be carefully considered not only as a standalone application but the total number of applications and their effect should also be considered. Although not considered permanent, 40 years is still a long time.
