Document Element: Policy SA1 – Strategic development location: Land East of Bilbrook

Respondent: Mr K Lloyd

Date received: 24/04/2024 via Web

Summary:

'An integrated and connected network of accessible green and blue infrastructure'

I would like to recommend the creation of a new right of way connecting green infrastructure. Leading from the Green Infrastructure Allocation at the south of the site to the Codsall Rd and beyond (using the national footpath network). Most of this path already exists, including a foot tunnel under the railway line (see attached picture). This path would support policy HC19 in the enhancement of a network of interconnected green and blue spaces. It would also provide a very enjoyable walk for all the residents of Bilbrook.
