**Document Element:** Policy HC10: Design Requirements

**Respondent:** Mr K Lloyd

**Date received:** 24/04/2024 via Web

**Summary:**

Incorporates tree lined streets, particularly along primary highway routes through the site.

How will this be achieved? My experience of tree planting on new estates, eg Penkridge, is that these trees are planted in front gardens where they either die, or are removed by home owners. What will you be doing to preserve these trees and prevent them from being removed or dying?
