Document Element: Parking Provision, 8.10

Respondent: Mr K Lloyd

Date received: 24/04/2024 via Web

Summary:

8.10 It is important that the plan responds positively to shape the way parking is accommodated in new development. The NPPF seeks to encourage a reduction in car usage by promoting sustainable transport choices

Full text:

8.10 It is important that the plan responds positively to shape the way parking is accommodated in new development. The NPPF seeks to encourage a reduction in car usage by promoting sustainable transport choices

Change suggested by respondent:

Having 4 roads exits for cars for the Bilbrook site does not support this plan. If the NPPF seeks to reduce car numbers then 4 road junctions contradicts and undermines the spirit of this policy and will not encourage alternative uses to the car.

Legally compliant: No

Sound: No
