Document Element: National requirements for plan-making, 3.1

Respondent: Bilbrook Parish Council

Date received: 23/12/2022 via Web

Summary:

Bilbrook Parish Council does not believe the proposed local Plan to be sound; it has not consulted with Bilbrook residents without access to the internet. Those with access have struggled with the complexity of the consultation portal and many have given up because they believe it's been made purposely difficult as it's a "Done Deal"

The Local Plan is being rushed through to avoid applying the Levelling-up and Regeneration Bill which would give local people more say in new developments ensuring enough of the right homes are built in the right places with the right infrastructure & protecting the environment.

Change suggested by respondent:

The Local Plan should be delayed until the Levelling-up and Regeneration Bill is passed and the Bilbrook Neighbourhood Plan put in place. The Parish Council believes together they will invalidate proposals for site 519.

Legally compliant: No

Sound: No

Comply with duty: Yes
